

## Acceptance Criteria for User Stories of Sprint 2

User Story 1: As a user, I should be able to log in and out of the application, so that I can start and end a session of using the application.

- Initial page with options to sign up and in
- Account page unlocked with correction information
- Account page displays who I (user) am
- A button to logout of account page.

User Story 2: As a user, I should be able to see how the text from my tweets characterizes me, so that I can see how others (people and otherwise entities) see me.

- Somewhere to enter my twitter handle
- A button to initiate search
- Something to display analysis about me
